AI Integration, Innovation Strategy, Patent & IP Development, High-ROI Automation
San Francisco, California, United States

Summary

I partner with visionary executives, ambitious startups, and innovative organizations to strategically integrate AI, drive innovation, accelerate growth, and deliver extraordinary business value. Combining over 15 years of business strategy, R&D, and high-impact consulting experience, I specialize in translating advanced AI and automation technology into immediate profitability and long-term competitive advantage.

My clients gain access not only to executive-level strategy and insights but to an integrated, results-focused AI team utilizing premium tools, proprietary methodologies (Executive AI Integration Framework™, Rapid Prototype & Patent Blueprint™), and world-class execution designed specifically for their unique challenges.

Core Services & Expertise:

AI-Driven Business Innovation:

Customized strategic roadmaps for rapid, measurable growth.
Immediate implementation of high-ROI AI solutions.

Invention Development & Patent Acceleration:

Rapid prototyping and patent application support.
Proven process: idea to investor-ready prototype in weeks.

Enterprise Automation & Efficiency:

Workflow automation for immediate cost savings.
CRM & process integration (HubSpot, Salesforce, custom solutions).

Executive AI Integration Workshops:

Premium, strategic virtual and in-person events.
Actionable strategies and tools provided for immediate implementation.

Proprietary Methodologies:

Executive AI Integration Framework™: Immediate AI-driven business growth strategies.

Rapid Prototype & Patent Blueprint™: Streamlined innovation, prototyping, and patent filing processes.

AI-Driven ROI Scaling Formula™: Optimized workflows and automation delivering measurable savings and profit boosts.

Ideal Clients & Partners:

Ambitious startups ready to leverage AI innovation.

Executives aiming for strategic clarity and accelerated results.

Visionary businesses requiring streamlined operational excellence.

Results & Outcomes:

Typical client ROI: 10x–100x within 6–12 months.

Immediate cost reductions: 20–50% via targeted automation.

Successful patents and innovations driving multimillion-dollar valuations.

Certifications & Qualifications:

Project Management Professional (PMP): Demonstrated expertise in leading complex projects to successful outcomes.

OSHA 30 Certification: Commitment to safety and compliance standards (valuable for specific industries and projects).
